# 4<sup>TH</sup> ANNUAL FLEET MANAGEMENT

Advancing vehicular tracking through smart integration

24th - 25th October 2018 | Pullman Bangkok Grande Sukhumvit, Thailand

“All our intelligence suggests that monitoring by telematics is increasingly accepted as a fact of life and the benefits more fully understood.”

- Ralph Morton, Editorial Director of Business Car Manager

## EVENT OVERVIEW

The rise of integrated connectivity technology had contributed to the enhancement of capabilities for fleet management operations to access real-time data from each and every vehicle deployed in the field. Fleet telematics plays a crucial role in ensuring improvements in safety, service and maintenance costs, and compliance. Quartz reported that 25GB of data are uploaded every hour to assist fleet managers in executing operational decisions with greater efficacy. As fleet sizes began to quadruple exponentially, intelligent and accessible data is generating new fleet management models designed to enhance fleet service, fleet maintenance, fleet repair and driver behaviour.

With correct application, telematics capabilities fitted into fleet management system brings advantages in valuable insights into consumer preferences and a seamless, intuitive fleet experience. The introduction of telematics in the operational aspect of Andrew Page, a 900-vehicle fleet company that distributes tools, parts and equipment in the UK, led to a 97% reduction in speeding, around 7% better fuel economy, a 47% reduction in crashes and other incidents and reduced maintenance costs.

Together with cost reduction results and efficient processes, the **4th Annual Fleet Management by Trueventus** features the key elements in achieving the highest value through deep analysis in fleet data and productive automation of vehicles. Connectivity is uniting the massive assets and sectors in fleet management while falling behind in fallible past infrastructures are detrimental to the business. Dive in to the efficient frameworks and processes from specialists and major industry players from a complex and in-depth conference.
